

Redux!

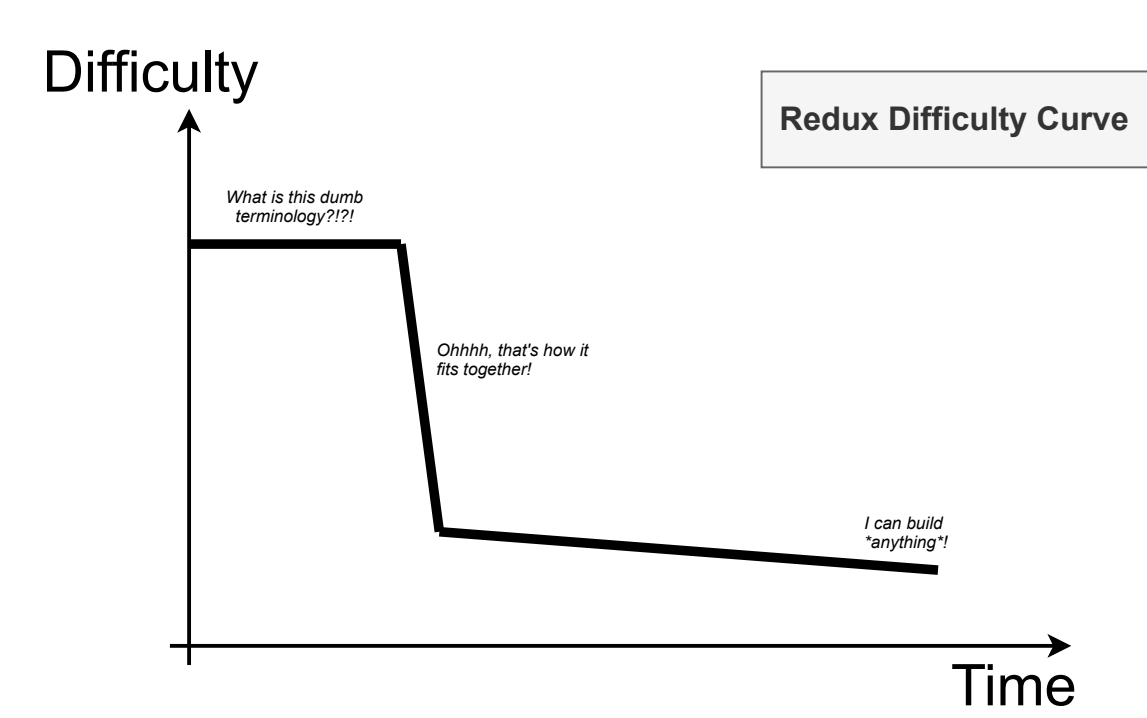

What is Redux?

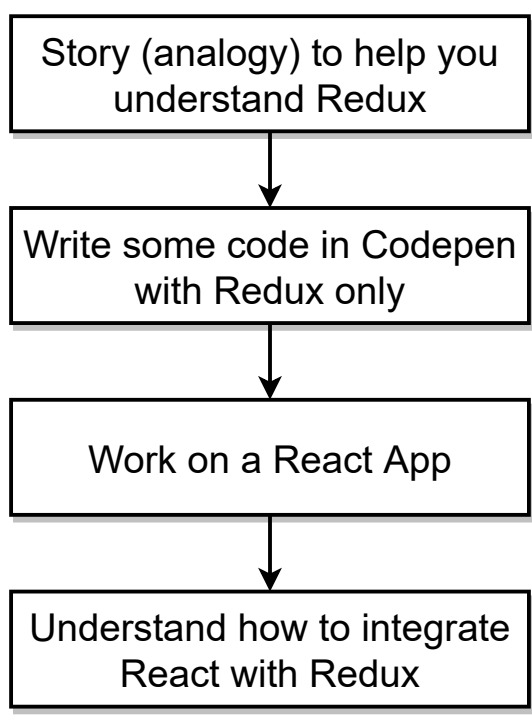

State management library

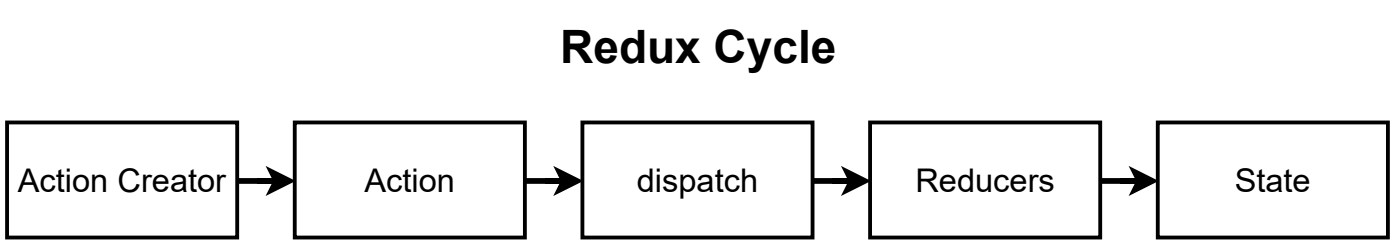

Makes creating *complex* applications easier

Not required to create a React app!

Not explicitly designed to work with React!

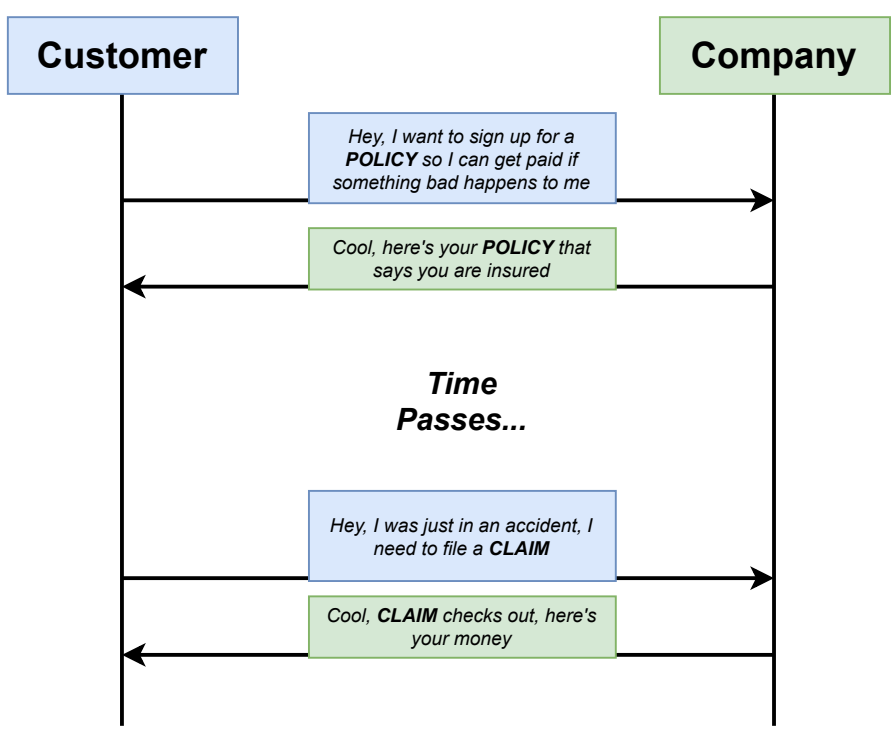

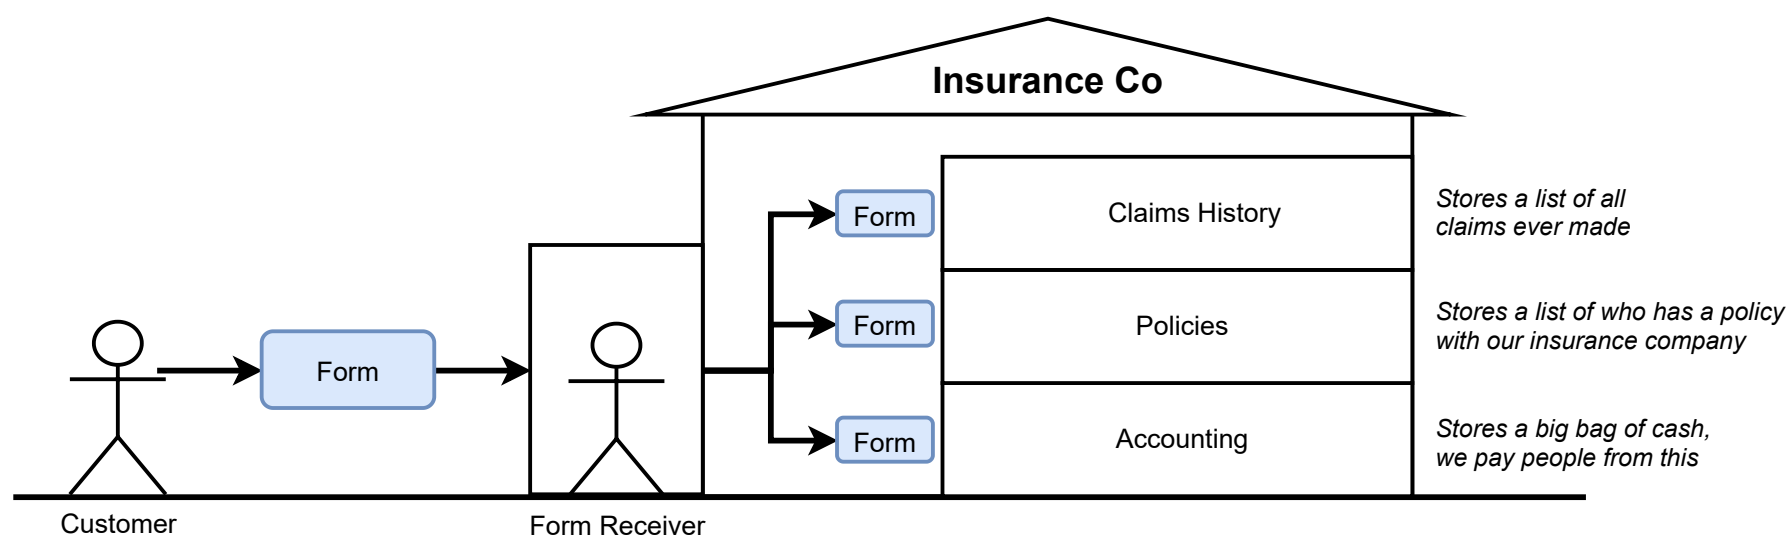

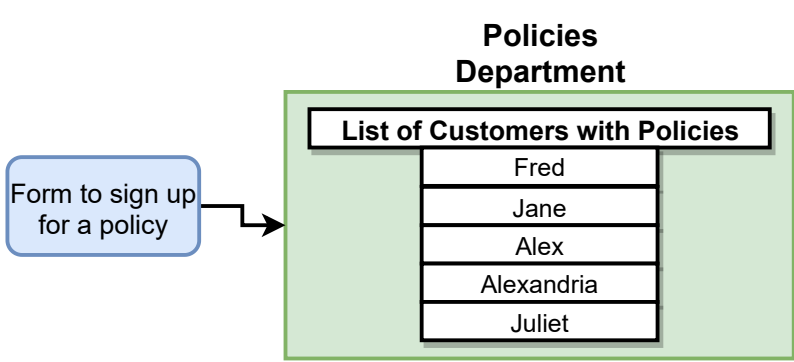

Let's build an insurance company!

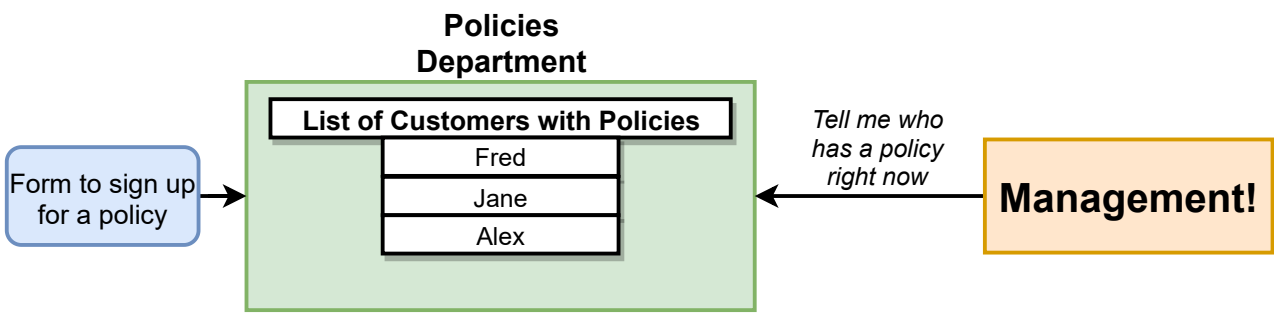

policy	Customer holds a 'policy', if bad stuff happens to them then we pay them
claim	Customer had something bad happen to them, we need to pay them

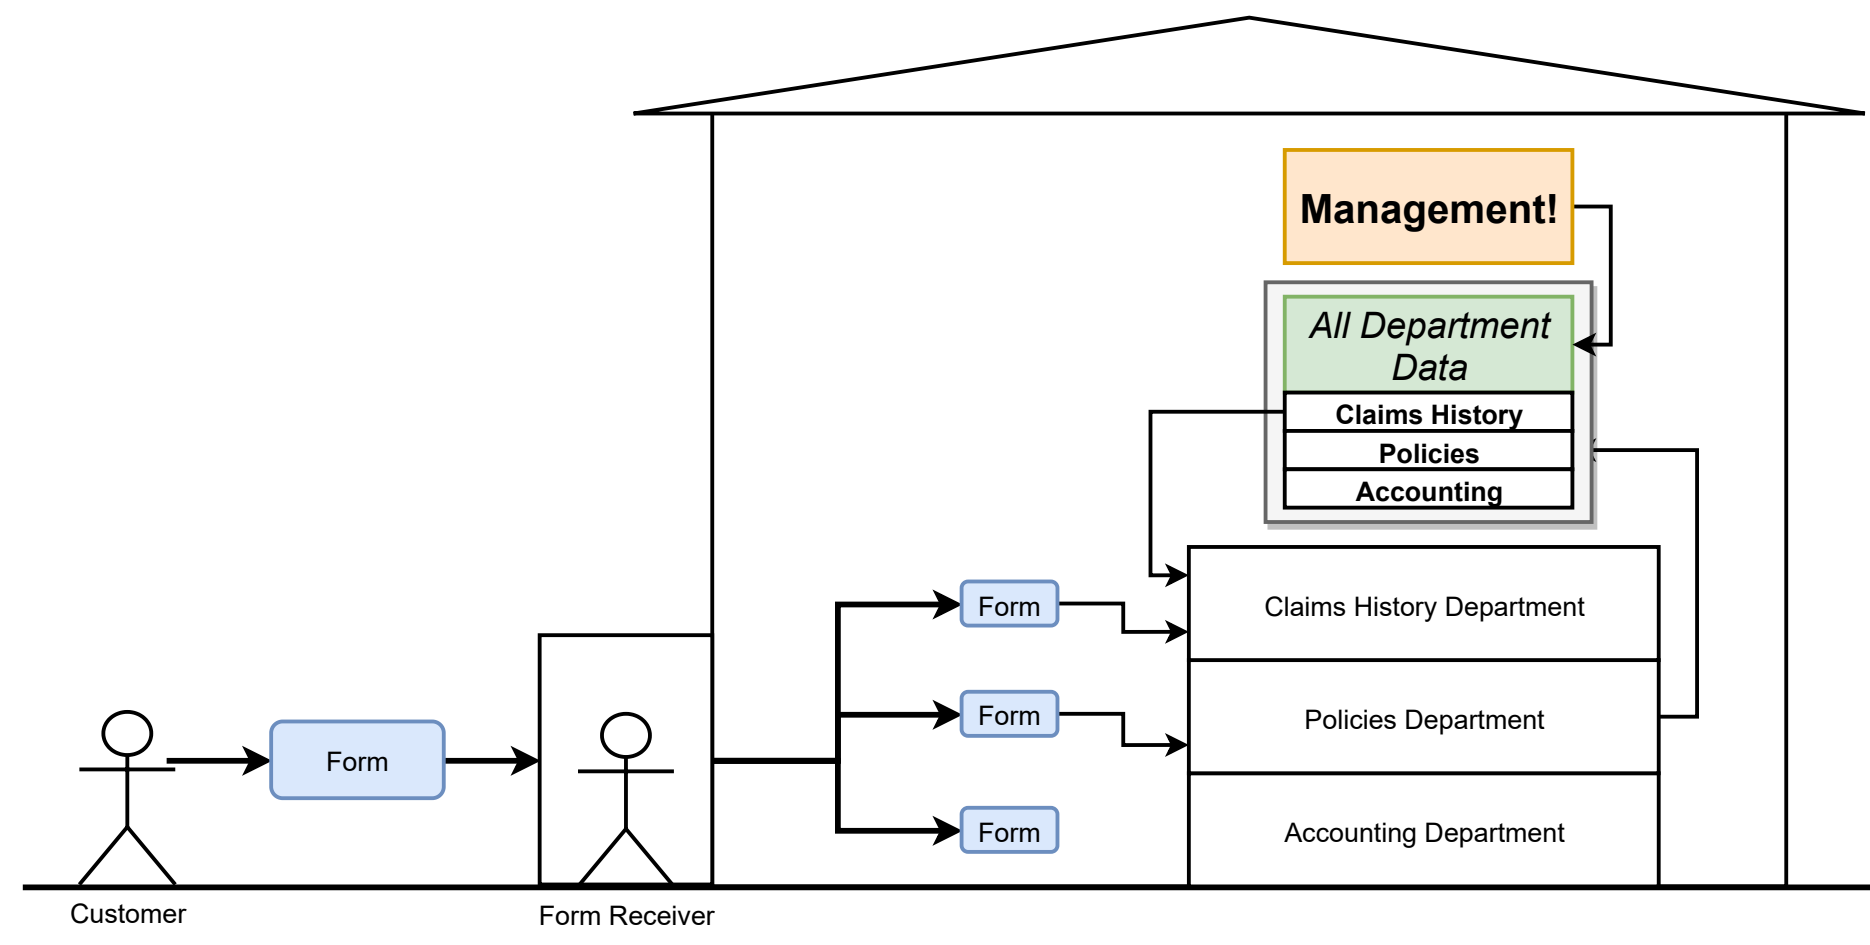

These are insurance terms, not Redux terms

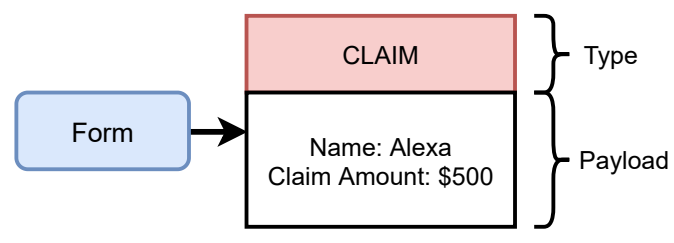

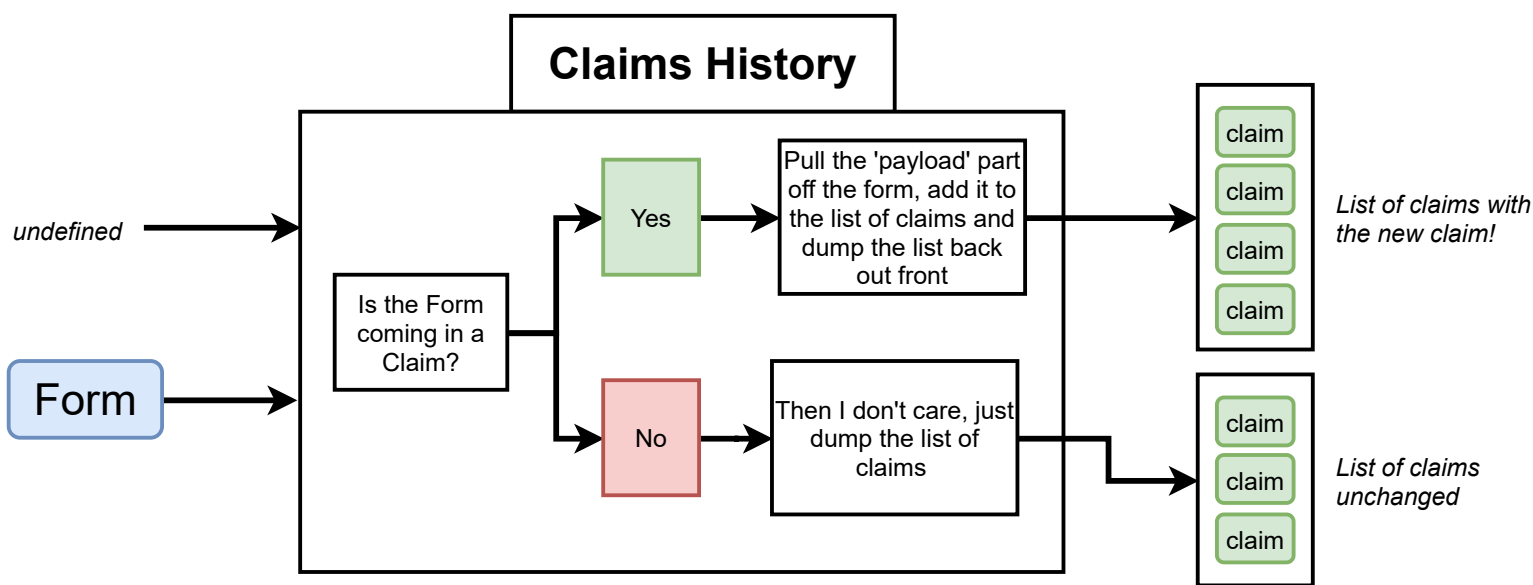

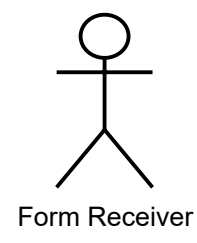

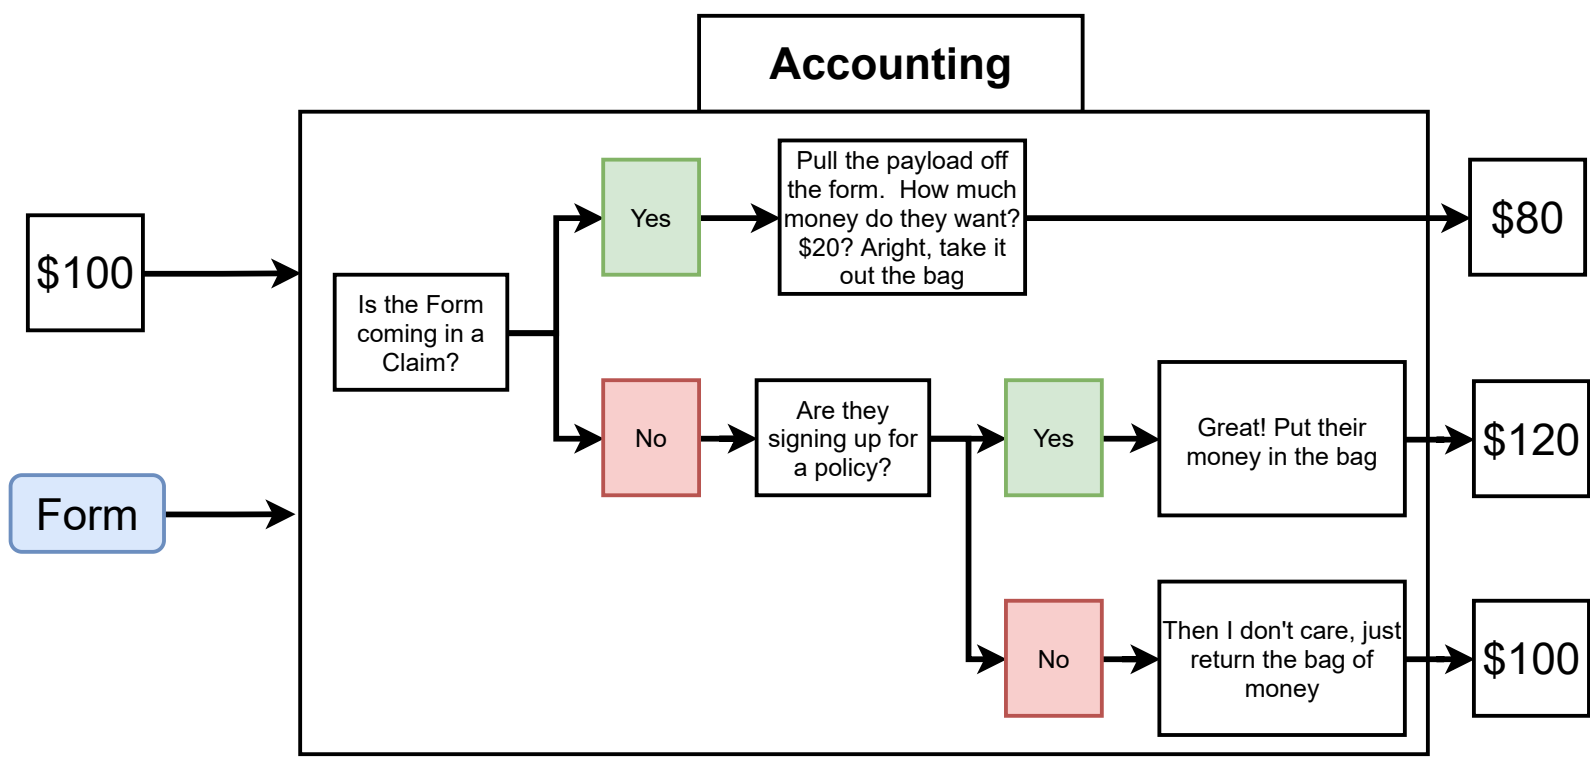

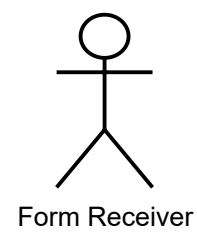

CREATE POLICY	CREATE CLAIM	DELETE POLICY
Name: Alexa Cash: \$20	Name: Alexa Claim Amount: \$500	Name: Alexa

Hey, here's a new form
someone left. Also,
here's a list of all the
claims we have

Hey, here's a new form
someone left. Also,
here's a bag with all of
our money in it

Hey, here's a new form
someone left. Also,
here's a list with the
names of everyone who
has a policy
